Above is the record of the Ships that have required Acts of Pilotage this year. The Balmoral is scheduled to operate in the area from 06th of September through until the 19th of September. We also have a jack up barge scheduled for the 12th of September. Although technically exempt from pilotage I have requested that they utilise a pilot given the barge will be towed over the Bar and up to Plas Newydd.

HARBOUR MASTERS REPORT 5th SEPTEMBER 2017
Part 1 – MARINE

PATROL RIB

The Patrol vessel is undertaking regular patrols when required. We did have an issue with the engine mid-late July. The vessel was taken to Dulas Boat yard for repairs and has been in good working order since. We intend to undertake regular patrols until late September. Naturally this will be weighed against weather events and demand and will be ready to undertake patrols until late November early December.

It is very encouraging to report that dredging work is currently being undertaken by Gwynedd Council in Doc Fictoria. The method of water injection with a suction head is being utilised. The dredger has been operating for approximately 10 tides, unfortunately it is hard to quantify the success of the operation, but surveys will be undertaken at regular intervals to attempt to ascertain the effect. It is clear from the images that the dredged is removing sediment from the Doc.

VESSELS

The Seiont IV is scheduled to be hauled out at Holyhead at 11:30 on the 20th of September. They surveyor has been booked for her out of water inspection.

EVENTS

A new event for Caernarfon this year is the Caernarfon Pirate Festival and was held on the 12th and 13th of August. It is hoped that this will become an annual event. Naturally this is a very appropriate event for the Harbour authority support. Although the Event was organised in a very short time, I felt it was a success and will be hopeful that it returns next year even bigger.
