

HARBOUR MASTERS REPORT 7th February 2017
Part 1 – MARINE

MARINE ADVISORY COMMITTEE

Next meeting date to be confirmed with Chairman Dr John O’Sullivan.

NAVIGATION

NtoM

- 1) Special mark Doc Victoria
- 2) Safe Water Mark, Temporary discontinuance.

All AtoN from C8 through to the bridges has been lifted, cleaned and inspected. Our focus will move to mussel bank seaward. I will also be surveying the approaches whilst maintaining the AtoN.

MOORINGS

Preparation work is underway to inspect and service all CHT owned moorings in readiness for the forthcoming season.

PILOTAGE

City of Cardiff	30-11-2016
City of Cardiff	01-12-2016
Mia Sophie B	08-01-2017
Mia Sophie B	10-01-2017

SEIONT IV

Routine maintenance to AtoN.

The vessel was surveyed during December to ensure its compliance with MGN280. The vessel is fully compliant and has been issued its certification. The vessel will require an out of water survey during the next survey on the 24th September 2017.

Naturally an allowance will need to be made to ensure all necessary work regarding moorings and Aton is completed prior to this date.

PATROL RIB

The vessel and its trailer are currently being serviced for the forthcoming season.

DOC FICTORIA

Dock Gate

Work to replace the protective flaps is progressing, Gwynedd council is leading on this project and aim to have completed the works prior to the main season.

HARBOUR MASTERS REPORT 7th February 2017
Part 1 – MARINE

Web cams

I envisage the webcams will be up and running before April this year. This will be of benefit to all the dock users, and will aid in the promotion of the Dock.

Navigational lights

It is agreed to replace the current system with a modern robust system. The current system has degraded severely over the years, and is at a point where it is no longer efficient to maintain them. Given the height of the pole it requires a “Cheery picker” each time work is required.
