

HARBOUR MASTERS REPORT 6<sup>th</sup> December 2024  
Part 1

---

**PMSC**

Standing position until report is available.

On the 21/3/2023 I am pleased to report that The MCA undertook a Port Marine Safety Code Health Check. We are still awaiting the report. I have sent request to the MCA for a potential delivery date. I have had confirmation that this report should be available in time for our next meeting.

Further to my last, there still has not been a report produced. I will continue to pressure.

**NAVIGATION**

After conducting a Survey to ascertain the best location for a fixed mark upon the Grampian castle, it has been decided that the originally intend midship location would be too restrictive in tidal window and the additional consideration for safe access, it has been decided to now station a South Cardinal rather than an Isolated Danger. Trinity House have granted authorisation.

The Steel has arrived and the fabrication of the receiving socket has already begun.

The manufacturing of two New Aids to navigation has been completed and are ready to be prepared for painting, we intend to galvanise the top marks, unfortunately it is not possible to galvanise the hull sections.
