

HARBOUR MASTERS MONTHLY REPORT 4<sup>th</sup> June 2025

---

**PMSC**

Standing position until report is available.

On the 21/3/2023 I am pleased to report that The MCA undertook a Port Marine Safety Code Health Check. We are still awaiting the report.

**NAVIGATION**

All AtoNs have now been inspected for this first bi-annual cycle, the second will commence towards the end of September.

Work to replace the failing access platform on Llanddwyn Tŵr Bach Lighthouse has commenced. The old platform has been removed and preparatory work has been completed to receive the new platform that is currently under construction.

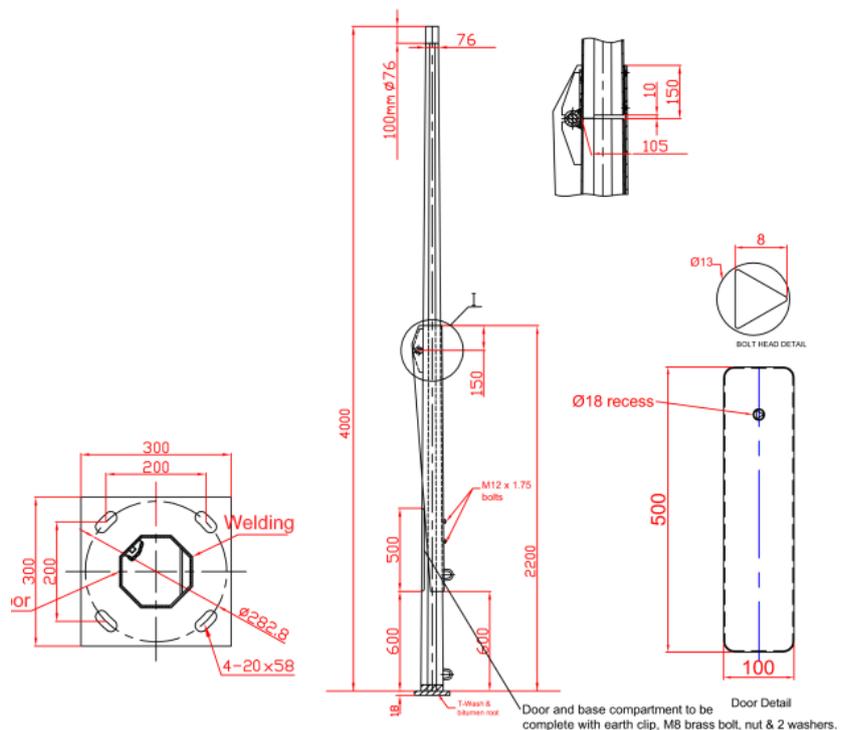

No effect on navigational safety will exist as the complete task will be completed without removing the light.

HARBOUR MASTERS MONTHLY REPORT 4<sup>th</sup> June 2025

A New counter levered Light pole has been ordered for the Abermenai Sectored Light. Plans to remove existing failing unit and safely install the replacement are currently being discussed.

No significant effect on navigational safety is expected as the task will be completed during daylight hours whilst maintaining the AtoNs ability to exhibit its appropriate light characteristic.

**Moorings**

New yellow mooring buoys have been ordered and are expected to be delivered early June; the intention is to trail 5 visitors' moorings in Y Felinheli mooring system. As a general contingency we maintain up to 5 spare moorings in Y Felinheli. These will be yellow buoys and used as Visitors moorings whilst remaining reserve moorings should they be required.

We will monitor usage and review the viability of maintaining this service.

HARBOUR MASTERS MONTHLY REPORT 4<sup>th</sup> June 2025

**NtoMs**

- 01/2025 - South East Rock South Cardinal off station
- 02/2025 - C2 Fl.R 10s is on its appropriate station
